PROJECT

Blog Application

- <https://github.com/huzaifa-shaikh17/Blog-Application>
- Built a full-stack-style blog app using React, React Router, and Bootstrap 5.
- Implemented role-based authentication and protected routes for secure access control.
- Developed complete CRUD operations for blog posts using a mock REST API (JSON Server).

E-Commerce Web Application

- <https://github.com/huzaifa-shaikh17/PR-2-E-Commerce>
- Built a full-stack MERN e-commerce platform with JWT-based role authentication (User/Admin).
- Implemented product, category, cart, and order management with real-time stock tracking.
- Developed an admin analytics dashboard using React, Node.js, Express, and MongoDB.

Café Aroma – Responsive Coffee Shop Landing Page

- <https://github.com/huzaifa-shaikh17/Coffee-Max-Width>
- Built a responsive coffee shop landing page using HTML5, CSS3, and Flexbox with a custom grid system.
- Designed modular UI sections with optimized images and Font Awesome icons.
